Official Paper for the County of Nye and the Town of Tonopah

## BELLEHELEN SEEMS DUE FOR GREAT REVIVAL

It begins to look like Belle Helen, one of the oldest silver districts in Nye county, was to enjoy a great deal of prosperity within the next few months. The announcement last made by the Belle Helen Mining company that plans are for mining where the property will be equipped with a modern mill for the reduction of the ores on the ground will greatly stimulate matters in that district, and should cause much real activity in many of the mines in that and the surrounding sections.

Belle Helen district has been receiving the attention it so richly deserves. The original Belle Helen mine has been credited with a production in excess of \$1,000,000 despite the heavy transportation and milling charges that have retarded operations to a material extent. The mine shows large reserves of open pit grade ore that can be handled profitably, providing milling facilities are available, and two of the best known mining engineers in the west have checked up the ore reserves and reported that there is close to one million dollars available without resorting to further development.

Oldtime miners and prospectors have possessed great faith in the Belle Helen district for many years, and it begins to look like they were about to see a realization of their dreams. There are a great many properties that make splendid showings from surface development, but the owners have been compelled to bide their time until the day was at hand when the original Belle Helen property should be equipped with a modern milling plant. We now have an almost positive assurance that the district will be provided at an early date with a modern mill, adequate to meet all future demands of the property, as well as to assist in the development of adjacent properties through treating the tonnage of ore that will naturally follow through the development of its neighboring mines.

The recent rich mineral discoveries at Camp Taylor, five miles south of Golden Arrow, and about 15 miles from Belle Helen, has given stimulus to the situation in that locality. Clifford and Silver Bow, as well as Arrowhead, will benefit in no small way as a result of the renewed activities in the Belle Helen district, and it would seem that mining men would soon be directing their energies to the territory in question. With Camp Taylor striding steadily forward as the home of permanent mines, as indications would now lead one to believe, with Belle Helen taking a renewed lease on life, with Clifford and Silver Bow both receiving well-merited attention, every individual community in the eastern and middle part of Nye county will again prosper, all of which will redound to the best interests of Tonopah by reason of this town being the natural distributing or feeding point.

## WAR GRAFT PROBE TO HIT BIG GUNS

In connection with the request of the department of justice for an appropriation of \$50,000 to promote its investigation and prosecution of war graft cases, Attorney General Daugherty sent to the president a letter reviewing what had been done by the department of justice in regard to such cases. In this letter Attorney General Daugherty makes the startling statement that persons high up in the Wilson administration are involved and that the prosecutions which are to follow in the immediate future will disclose this fact. Attorney General Daugherty's exact language is as follows:

"The transactions out of which these cases grew in a vast majority of instances took place in the preceding administration. Naturally, little or nothing was done during that administration to bring these matters to light. As the country will soon have reason to know, influential personages in the government who had knowledge of these transactions and who were in a position to make disclosures were personally interested in concealing them. It is not to be wondered, therefore, that upon coming into office I found not only that practically nothing had been done in the way of investigating and prosecuting these offenses, but that no machinery had been set up for handling the cases in an orderly and systematic way."

When Mr. Beveridge takes his seat in the senate he will be a friend of the administration and an aid to republicanism. Democratic fault finders may as well put that in their pipes and smoke it. They are their party will get no comfort from him then.

## PRaise OF CONGRESS

No congress of the United States in time of peace has passed so much constructive and helpful legislation as the present one. No other congress in the history of the United States ever enacted a greater percentage of legislation promised by the administration, says the New York Times. The debts inherited from a democratic administration, however great and unwarranted, must be paid. They must be paid by levying of taxes. The republican congress must write the tax laws to pay debts. There are no popular forms of taxation, hence criticism of any tax law is to be expected. But the new tax law written by the republican congress reduces taxes by \$800,000,000 this year and will make a further reduction next year. Despite the necessity of meeting the obligations left by the democratic administration, by the closest cooperation between the executive and legislative branches.

has reduced the national expenditures by almost \$2,000,000,000.

Under the republican administration government bonds have advanced 15 per cent since March 4, 1921, selling at par or above for the first time since they were issued. On the other hand, new government securities are finding an eager market, although they bear a lower rate of interest than any time since the pre war period. The interest rate has been lowered from 7 per cent to a pre-war level by the federal reserve bank, thus making it easy for legitimate interests to obtain necessary credit.

The basic industry of agriculture has been placed on its feet by a series of laws enacted by the present congress with the result that today that great industry, representing one-third the population and 40 per cent of the buying power of the country, looks forward to a year of prosperity where it faced utter ruin when the republican administration came into power.
